

# NIKTO REPORT FOR METASPLOITABLE VM

Generate a HTML nikto report for metasploitable VM

Step 1: If Nikto is not installed yet, install it on Kali Linux using the following command:

```
sudo apt-get install nikto
```

Step 2: Run Nikto against the IP address of the Metasploitable VM.

```
nikto -h 192.168.1.10 -o report.html -Format htm
```
